

Arebaokeng Hospice

Arebaokeng Hospice was established in 2000 to provide palliative and primary healthcare for community members in and around Tembisa. Responding to a growing need in these communities, Arebaokeng established an ECD centre and an afterschool support centre that reaches 145 orphaned and vulnerable children. The hospice received a grant from the Deloitte Foundation for food, medical supplies and stationery, amongst other things. The funds contributed to sustaining the centre and to helping the 48 Arebaokeng staff members meet the daily needs of the 145 ECD beneficiaries and 1 200 patients.
