

Mitchell's Plain Role Model and Bursary Trust

In April 2010, former Minister of Finance Trevor Manuel convened the Mitchell's Plain Role Model and Bursary Trust. He made a commitment to work with the community to establish this Trust which would support deserving learners from 16 high schools in the community. Deloitte provided a grant contribution towards financially supporting two learners with their post-matric education. As a result of our funding and other partners, the students have gone on to study at their chosen higher education institutions.
