

Izinsika Zesizwe

Izinsika Zesizwe focuses on mentoring, grooming and empowering previously disadvantaged young women from rural areas. The organisation facilitates the acquisition of life skills and hosts career guidance workshops, as well as provides training courses in entrepreneurship and financial management. Deloitte provided a grant towards a project which saw 30 young women from Nkangala in the Mpumalanga Province take part in the programme. The main objective of the programme was to provide these young women with skills that would help them to become self-reliant members of their communities.
