

## **Imperial and Ukhamba Community Development Trust**

The Imperial and Ukhamba Community Development Trust (IUCDT) collaborates with local and international companies that seek to make meaningful contributions to the advancement of people from previously disadvantaged groups. Deloitte made a financial contribution to IUCDT in a project to provide fully-functional libraries to previously disadvantaged schools in the South of Johannesburg. Through our support, the Trust was able to provide 800 new books to the school library at Zakariyya Park Combined School. More than 900 learners are now regular users of the library. Notably, the formal reading programmes introduced at the school have cultivated a culture of reading and ensured maximum use of the library.
